

---

My name is Andrew C. Forbes and I am submitting my CV for your review. I hope that you will consider me for a position on one of your amazing projects. I am a dynamic and ambitious designer with experience in a variety of different areas. During my time at university, I did a lot of conceptual projects at varying scales such as Glasgow Croft, Monument, and Campus. I have also been involved with a lot of live projects, including the Global Service Jam, Test Unit and Swankie Jo's shop refit. My talents and strengths include idea generation, Photoshop, SketchUp and making. I have had to adapt to many different projects, using my strong foundation of skills I have always succeeded.

Recently finished University where I worked with a lot of conceptual projects. I am full of ideas and am incredibly passionate. Due to this, I am daring to turn my ideas into functional designs which can impact peoples lives. Although I have the ambition to start designing; there are not a lot of jobs in Scotland. I have considered going away and travelling for a bit and try again when I return. I spent every moment I could since I left school to go travel. I love being away surrounded by new people and places. Journeyman International has given me a possibility of travelling and getting one foot into design.

I look forward to the opportunity of discussing involvement with you further and how I can significantly contribute to the ongoing success of the projects that have come before me.

Andrew Campbell Forbes.
